

**Anita van den Broek**  
**Mixed Media Textiles**

From a passion for colour and texture on fabric Anita has developed into a mixed media textile artist with an inspired, expressive approach. She works with different fabrics, threads, stitches and mixed media effects, such as painting and stamping, on fabrics.

Anita is particularly interested in creating memories and feelings within her work by incorporating both traditional and new media such as edited images, words and mementos to create individual pieces to commission.

Anita also works her fabric creations into distinctive bags, notebooks and phone covers.
